Crystals for Attunement & 'Erbs to Burn

There are so many different ways to connect with our Ancestors :) These documents, I hope, will give you the confidence to explore just a few, mix them up, try a bit of everything—NO rules...remember!!

When it comes to crystals, you know I love 'em!! And I'll always advocate people use them in magick and healing! In the FILES area in the group, there is a list of suppliers of both crystals and 'erbs, so if you're not sure where to buy from, check out that list!!

'Erbs I came to via Aromatherapy when I was but 20!! I was hooked right away and it wasn't long before I was making my own blends (I even kept my recipe book from back then!!) and making products for my own use, and occasionally for friends too!

It's why it's so amazing to be able to share this with you now!! :D

So, in the following pages are a list of Crystals and their specific properties which will aide you in your Ancestor Work, plus a list of 'erbs which can be used in different *magickal* ways to make that connection :)

As always....if you have any questions (and there is no question I won't answer sometimes, if I don't know the answer, I will research and come back to you) please please, come to group and ask, or email me at thepathofwitchcraft@gmail.com

Bright Ancestral Blessings All!
